INFORMATION, AUTHORIZATION, & CONSENT TO TREATMENT

I am very pleased that you have selected me to be your psychologist, and I am sincerely looking forward to assisting your family. This document is designed to inform you about what you can expect from me regarding confidentiality, emergencies, and several other details regarding your treatment or the treatment of your child. Although providing this document is part of an ethical obligation to my profession, more importantly, it is part of my commitment to you to keep you fully informed of every part of your therapeutic experience. Please know that your relationship with me is a collaborative one, and I welcome any questions, comments, or suggestions regarding treatment or evaluation at any time.

Background Information

The following information regarding my educational background and experience as a psychologist is an ethical requirement of my profession:

I am a licensed clinical psychologist in Georgia and a Nationally Certified School Psychologist. I specialize in comprehensive psychological assessment and therapeutic treatment of children, adolescents, and adults with a variety of academic, social, and emotional concerns. I have also provided therapy and assessment for individuals and families in Georgia and California for over 20 years.

I received my Bachelor of Science degree with honors from Georgia Institute of Technology. I also obtained an Ed.S. in school psychology from Georgia State University and a doctorate in clinical psychology (Psy.D.) from Argosy University – San Francisco. My professional experience includes work in individual private practice, public schools and preschools, day treatment facilities, infant-parent programs, and clinical outpatient settings,

My private practice includes psychological assessment and individual therapy for individuals from preschool through college. Areas of particular expertise include Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders, Mood Disorders, Dyslexia, and other learning disorders and associated issues. I also provide parent consultation, educational consulting, ADHD & Executive Function Coaching, Parenting Skills Training, and educational advocacy regarding Section 504 Plans and Individual Educational Plans in schools. In addition, I perform adult ADHD evaluations.

Professional Relationship

Psychotherapy, psychological assessment, or consultation are professional services I will provide to you or your child. Because of the nature of therapy and assessment, your relationship with me has to be different from most relationships. It may differ in how long it lasts, the objectives, or the topics discussed. It must also be limited to only the relationship of therapist and client. If you and I were to interact in any other ways, we would then have a "dual relationship," which could prove to be harmful to you in the long run and is, therefore, unethical in the mental health profession. Dual relationships can set up conflicts between the therapist's interests and the client's interests, and then the client's (your) interests might not be put first. In order to offer all of my clients the best care, my judgment needs to be unselfish and purely focused on your needs. This is why your relationship with me must remain professional in nature.

Initial _____

Additionally, there are important differences between therapy and friendship. Friends may see your position only from their personal viewpoints and experiences. Friends may want to find quick and easy solutions to your problems so that they can feel helpful. These short-term solutions may not be in your long-term best interest. Friends do not usually follow up on their advice to see whether it was useful. They may *need* to have you do what they advise. A therapist offers you choices and helps you choose what is best for you. A therapist helps you learn how to solve problems better and make better decisions. A therapist's responses to your situation are based on tested theories and methods of change.

You should also know that psychologists are required to keep the identity of their clients confidential. As much as I would like to, for your confidentiality I will not address you in public unless you speak to me first. I also must decline any invitation to attend gatherings with your family or friends. Lastly, when your therapy and/or assessment is completed, I will not be able to be a friend to you like your other friends. In sum, it is my duty to always maintain a professional role. Please note that these guidelines are not meant to be discourteous in any way, they are strictly for your long-term protection.

Statement Regarding Ethics, Client Welfare & Safety

I assure you that my services will be rendered in a professional manner consistent with the ethical standards of the American Psychological Association. If at any time you feel that I am not performing in an ethical or professional manner, I ask that you please let me know immediately. If we are unable to resolve your concern, I will provide you with information to contact the professional licensing board that governs my profession.

Confidentiality & Records

Your communications with me will become part of a clinical record of treatment, and it is referred to as Protected Health Information (PHI). Your PHI will be kept in a file stored in a locked cabinet in my locked office. Additionally, I will always keep everything you say to me completely confidential, with the following exceptions: (1) you direct me to tell someone else and you sign a "Release of Information" form; (2) I determine that you are a danger to yourself or to others; (3) you report information about the abuse of a child, an elderly person, or a disabled individual who may require protection; or (4) I am ordered by a judge to disclose information. In the latter case, my license does provide me with the ability to uphold what is legally termed "privileged communication." Privileged communication is your right as a client to have a confidential relationship with a therapist. This state has a very good track record in respecting this legal right. If for some unusual reason a judge were to order the disclosure of your private information, this order can be appealed. I cannot guarantee that the appeal will be sustained, but I will do everything in my power to keep what you say confidential.

If you are under 18 years of age, the law may give your parents or legal guardians the right to access your records. It is my policy to request an agreement from legal guardians that they will give up this right so that clients under 18 years of age may have privacy in their sessions. If they agree, I will provide them only with general information on how your treatment is proceeding. Of course, an exception to this would be if I believe that you are in imminent danger of harming yourself or someone else, in which case I will let them know my concerns.

Divorce and Custody

I am not a custody evaluator and cannot make any recommendations on custody. I can refer you to a list of licensed forensic psychologists who provide custody evaluation if needed.

I require a copy of the current, standing court order showing custodial rights for each parent and/or the parenting agreement that is signed by both parents and the judge at the first intake session before I am able to meet your child. I will need to have contact with the parent who has legal custodial decision making for medical issues before I see the child for assessment or therapy and will need to obtain written consent for the child to participate in assessment and/or therapy from the legal custodian, and prefer to have contact with both parents prior to seeing the child.

Initial _____

I ask all of my clients to waive the right to subpoena me to court. The policy is set in order that I can preserve the efficacy and integrity of my therapeutic process and my relationship with you and your child(ren). My appearance in court can damage the therapist-client relationship and it is my ethical duty to make every reasonable effort to promote the welfare, autonomy, confidentiality, and best interests of my clients. By signing this agreement, you are waiving your right to have me subpoenaed and agreeing in fact not to have me or my records subpoenaed. I will be happy to provide a referral to another therapist who will be willing to appear in court if you would prefer.

Court Testimony

I am not trained in matters that involve the legal system. If required to testify for court (by a judge), speak with legal counsel, prepare documentation, etc., my fee is \$500 an hour plus mileage and expenses incurred. A two hour minimum will be charged. Medical insurance does NOT pay for these services.

Insurance

I am no longer an in-network provider for Aetna or Blue Cross/Blue Shield insurance. Most health insurance companies provide some coverage for mental health treatment and assessment. If your insurance includes out-of-network benefits, you will need to file your own insurance claims. I can provide you with an itemized payment receipt that contains all of the information that most insurance companies require. Some insurance companies may require you to pre-certify treatment. It is your responsibility to contact your insurance company and discuss with them. If the insurance company requires me to complete authorization paperwork, you will be billed at a rate of \$160/hr.

Insurance companies typically authorize a maximum of 12 assessment hours and generally will not pay for testing associated with learning disorders, such as achievement testing. Most insurance companies will require me to provide a clinical diagnosis if you wish to get reimbursed. This information becomes part of the insurance company files. In some cases, your insurance company may send the information to a national medical information data bank. This raises concerns about privacy and confidentiality for many people. To avoid the possibility of insurance companies obtaining any information about your mental health care, you might wish to pay for services yourself. Many clients have chosen this option.

Professional Fees

The professional fees charged for therapy, assessment, or other services on a private pay basis will be discussed individually during the first intake session. My current private pay fees are as follows: Initial Intake session \$250/hr.; Therapy/consultation session (\$175/hr.); Psychological testing (\$175/hr.); Comprehensive Psychological Evaluation for children & adolescents, which includes intake, assessment, scoring, report writing, and review of results (\$2500). A comprehensive psychological evaluation includes approximately 15-20 hours of the examiner's time. This can be paid separately as \$625 over 4 sessions (Intake, 2 testing sessions/Review of results). If additional testing sessions are needed, there will be no additional charge. The fee for Adult ADHD testing is \$700 (Intake & testing session/s; meeting to review the results, brief report). Please be advised that psychological testing reports will NOT be released until payment for the evaluation is made in full. Forms, letters, and affidavits will incur a fee of \$175/hr. A fee of \$25 plus additional expenses incurred will be applied should your check be returned.

Attendance at school meetings, including 504 Plans, special education eligibility, and other conferences, as well as classroom observations, will be billed at a rate of \$200/hr. Additional travel and time expenses will be charged for meetings outside a 10-mile radius of my office.

Initial _____

I accept almost all major credit cards, including American Express, Visa, and MasterCard. You may also pay by personal check. You will be responsible for any expenses incurred to collect unresolved balances as well as an additional fee of \$25.

Cancellation Policy

In the event that you are unable to keep an appointment, you must notify me at least 24 hours in advance. If such advance notice is not received, you will be financially responsible for the session you missed. Repeated late cancellations or failure to show for scheduled appointments may result in your termination as a client.

Technology Statement

In our ever-changing technological society, there are several ways we could potentially communicate and/or follow each other electronically. It is of utmost importance to me that I maintain your confidentiality, respect your boundaries, and ascertain that your relationship with me remains therapeutic and professional. Therefore, I've developed the following policies:

Cell phones: It is important for you to know that cell phones may not be completely secure and confidential. However, I realize that most people have and utilize a cell phone. I may also use a cell phone to contact you. If this is a problem, please feel free to discuss this with me.

Text Messaging and Email: Both text messaging and emailing are not secure means of communication and may compromise your confidentiality. However, I realize that many people prefer to text and/or email because it is a quick way to convey information. If you choose to utilize texting or email, please discuss this with me. **However, please know that it is my policy to utilize these means of communication strictly for brief topics such as appointment confirmations.** Please do not bring up any therapeutic content via text or email to prevent compromising your confidentiality. **You also need to know that I am required to keep a copy of all emails and texts as part of your clinical record.**

Facebook, LinkedIn, Instagram, Pinterest, Etc.: It is my policy not to accept requests from any current or former client on social networking sites such as Facebook, LinkedIn, Instagram, Pinterest, etc. because it may compromise your confidentiality.

Hearing and Vision

Parents of minors receiving a comprehensive psychological evaluation are **strongly encouraged to secure a current hearing and vision screening** (within the past year or more current if intermittent hearing loss is suspected) for their child before the evaluation is started. Please note that the validity of all or some of the results would be called into question if the child was found to have hearing or vision problems after the evaluation was completed. In addition, if you are planning on using the results of this evaluation for an Individual Educational Plan at their public school, the results might not be accepted without cleared hearing and vision. It is the parent's responsibility to make sure that the child has passed a hearing and vision evaluation within the past year. If the parent chooses not to do so, then the parent will be charged additional fees for additional administration of assessments and/or rewriting the report. This additional testing would probably not be covered by your insurance plan.

In Case of an Emergency

My practice is considered to be an outpatient facility, and I am set up to accommodate individuals who are reasonably safe and resourceful. I do not carry a beeper nor am I available at all times. If at any time this does not feel like sufficient support, please inform me, and we can discuss additional resources or transfer your case to a therapist or clinic with 24-hour availability. Generally, I will return phone calls within 24-48 hours. If you have a mental health emergency, I encourage you not to wait for a call back, but to do one or more of the following:

- **Call Behavioral Health Link/GCAL: 800-715-4225**
- **Call Ridgeview Institute at 770.434.4567**
- **Call Peachford Hospital at 770.454.5589**
- **Call 1-800-SUICIDE (784-2433)**
- **Call 911.**
- **Go to your nearest emergency room.**
